RE: 2022 Price Increase

To Our Valued Dealers and Customers,

Since 2020, the world has seen an unprecedented trend of ever-increasing costs of materials, overhead, labor, and transportation. We, like many businesses around the world, have not been immune to the rippling effects of the pandemic, global supply chain issue, and turbulent economic nature of recent times. Although we have been able to absorb the increasing costs to manufacture our equipment for 2020 and most of 2021, we can no longer shoulder the impact, and as a result, we have deemed it necessary to adjust our prices.

We will be increasing the prices of our equipment and accessories effective **July 1, 2022**. We will continue to honor current price structures up to June 30, 2022.

We are committed to offering you the quality you expect and deserve, and we are confident that our prices remain competitive within our sector for the value of the products that we provide. We sincerely thank you for your ongoing support and trust that these changes will help us continue providing you with the best quality material handling products in the industry. In the meantime, we encourage you to take advantage of our existing pricing through the end of June 2022.

We at Bishamon Industries greatly appreciate your continued business and support through these difficult times. If you have any further questions or concerns regarding this price increase, please do not hesitate to reach out to our dedicated team at (909) 390-0055 or email us at bishamonsupport@bishamon.com.

Sincerely,

Brian Dedmon
Director of Sales
